The OAR must be completed by all "Investigators/Key Persons" (paid and unpaid) on your award per UC policy 1.3.2 "Conflict of Interest on Externally Funded Projects". A Key Person includes all individuals involved in research, regardless of job title, who contributes in a substantive way to the development, execution, and reporting of research, and who are granted a significant degree of freedom in exercising independent judgment. The Primary Investigator should consider the role, rather than the title, of those involved in this research and the degree of independence with which those individuals work. All those determined to be Investigators should be listed below. Please be aware that an unidentified Conflict of Interest (COI) may lead to a compromise of your research.

Individuals that will be identified on subawards should not be listed as their compliance with new FCOI requirements will be confirmed prior to issuing a subaward to their institution.
