

Release of Liability and Waiver Claim for Minors

**UNIVERSITY OF CINCINNATI
CINCINNATI CHILDREN'S HOSPITAL MEDICAL CENTER
SHRINER'S HOSPITAL FOR CHILDREN**

Your minor child has applied to work in a research laboratory and/or hospital clinical area and will be performing routine procedures for that area. Regulated material and/or equipment are used in the area and have the potential for isolated incidents involving health and physical hazards. In these areas, one may find a variety of chemicals, biological materials, radioactive materials and/or radiation generating equipment.

Environmental safety course(s) will be presented to inform and prepare the minor for working with and/or around hazardous material and/or devices. If the minor shall directly handle hazardous material or operate devices, additional training will be provided as required by policy, state and/or federal rules. If you have any questions contact:

- For radiation safety issues call:
Radiation Safety Office @ 558-4110
- For chemical, biological, physical and/or fire/life safety issues, the appropriate safety office call:
University of Cincinnati Environmental Health and Safety Office @ 556-4968
Cincinnati Children's Hospital Medical Center Safety and Health Office @ 636-7286
Shriner's Hospital for Children Risk Management Office @ 872-6287

I _____ as parent/legal guardian of _____, age _____
(print parent/guardian name) (print student's name)

hereby give my consent for him/her to work at either the University of Cincinnati, Cincinnati Children's Hospital Medical Center, or Shriner's Hospital for Children.
